

BATH & SPA GOODS THAT TRANSFORM LIVES.

HHPLift's LiftWorks™ Program is dedicated to breaking the cycle of poverty for people in disinvested & overlooked communities in Chicago by teaching them the career development and job skills needed for success in the workplace. Our employment partners include: Heartland Alliance (READI Chicago, FarmWorks, and SEED), Cara, Transition2Work, StreetWise, Growing Home, and New Moms.

Our workforce comes from our employment partners and includes those in the justice system and identified most at risk for gun violence; those coming out of addiction, housing instability, homelessness, and food insecurity; at-risk young mothers; young adults with intellectual differences; and those who are physically challenged.

Through on-the-job-training, educational workshops, mentorship, and more, our associates are onboarded to the Lift™ Workshop where they are:

- Trained in all facets of producing our bath & spa goods, including computer skills, production, marketing, and shipping
- Provided leadership and career training with the goal of creating the next leaders at HHPLift
- Given opportunities for economic independence and opportunities for advancement at HHPLift and beyond
- Healthy lunches, yoga, and an inclusive work environment

BAGS, TOTES, TECH ACCESSORIES, AND TRAVEL GEAR MADE FROM REPURPOSED INDUSTRIAL NET.

Designed in Italy, and handcrafted by our social enterprise partner in Cambodia. HHPLift is the exclusive supplier of these repurposed construction netting products in the USA.

- Free healthcare, daycare & preschool for the artisans & families
- Economic independence & fair wage employment for artisans
- 13-month annual salary for the artisans
- Eco-friendly & sustainably made from repurposed materials

FAIR TRADE JEWELRY MADE FROM REPURPOSED & UNIQUE MATERIALS.

Faire trade jewelry handcrafted in Ecuador and Vietnam that highlight luxe natural, native materials such as sustainably harvested tagua, upcycled bull horn, and sustainable wood.

- Artisans are provided dignified wages
- Robust employee benefits offered that provide a path out of poverty
- Reinvestment is made in the artisan partner communities
- All pieces are sustainable and environmentally sound

QUALITY WALL CLOCKS MADE BY INDIVIDUALS WHO ARE LEGALLY BLIND.

Elegant clocks that transform the look of a room, and the lives of the artisans who make them.

- Made with 30% post-consumer recycled content
- Each clock is subject to a two-step testing procedure before it is packaged
- Comprehensive vision care and social services are provided to the artisans
- The organization also provides vision rehabilitation services, education, employment opportunities and assistive technology for people of all ages
- Purchasing clocks means providing meaningful employment for people who are blind

BOWLS HANDMADE FROM RECYCLED BICYCLE SPOKES AND IRON WASHERS.

Handcrafted in India with exceptional attention to detail by artisans skilled in cutting & welding.

- Wages are 10-15% higher than local standards
- Artisans are offered long-term business investment and collaboration
- A sustainable income for artisans through the export of handmade crafts to international buyers
- Provides health, education, clean water, profit sharing and capacity building initiatives directly to artisans.

UPCYCLED PLYWOOD JOURNALS WITH HANDMADE PAPER

Unique journals made from upcycled plywood and recycled paper, and can be laser engraved with logo or a message

- Made at family owned social enterprise in Sri Lanka
- All products are eco-friendly with a minimum impact on the environment
- Artisans are continually thinking of new ways of making use of nature's discards to create a rare and natural selection of handcrafted notebooks
- Discarded wood from factories and carpentries are upcycled into functional products

HHPLIFT'S ECO-FRIENDLY LINE OF HOME, OFFICE, AND PERSONAL ACCESSORIES

All products are handmade from kraft paper fabric: an eco-friendly leather alternative. Felt accents are comprised of corn- and wood- based polyester

- Products are sewn by refugee women at the RefugeeOne Sewing Studio
- The goal of the RefugeeOne program is to help refugees become self-sufficient in as few as 6 to 9 months
- Products are assembled by LiftWorks™ Program associates facing barriers to fair wage employment
- All goods are eco-friendly, sustainably made, and socially responsible

FAIR TRADE COFFEE BEANS THAT ARE SOURCED ETHICALLY AND SUSTAINABLY.

Partnering with small, authentic farms and estates ensures that each farmer and worker is paid a dignified, fair trade wage.

- Every bean is sourced ethically in Brazil, Sumatra, Colombia, and Honduras
- Trading partnerships are based on dialogue, transparency, and respect
- The goal is to achieve greater equity in international trade

TEAS PACKAGED BY REFUGEES WITH 10% OF SALES GIVEN TO REFUGEE RESETTLEMENT AGENCIES

The teas are ethically sourced, naturally flavored, and healthy. Loose-leaf tea blends are known for having higher antioxidant content than a tea bag

- Addresses & counteracts the lack of employment available to refugees upon resettlement
- Sourced from ethical suppliers
- Creates job opportunities with flexible work schedules
